MANN'S
PARCHMENT COPYING PAPER.

(Trade-Mark Registered in U. S. Patent Office.)

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY** than any other ever made for the purpose. The Ink is **LESS LIABLE TO SPREAD** and the paper can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then, with brush, wet the leaf. Take off surplus moist with another sheet of blotting-paper; then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain,) place it in the press, and, in ten or fifteen seconds, a perfect copy will be secured.

The leaves WILL DRY AS SMOOTH AS SILK, if the book is placed in the press after Copying.

☞Place oil-sheets between copies just made to prevent blending or setting off.

Another Process when many letters are to be copied.

Procure a tin or iron box, with lid, to hold 20 blotting-pads.—(Boxes furnished, if desired.)

Dip half the lot of blotters in water; let them drain off a few moments; then place a dry blotter between each wet one; give them a few moments squeeze in Press and they will remain wet for three days; then take an oil-sheet; place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil-sheet, and so on; and you can copy all your letters at one time; thereby saving time. With a little care and experience, at first, as to wetting, you will be so well pleased, as never to become the old way.

To copy TYPE-WRITTEN LETTERS, the leaves require MORE MOISTURE than they do to Copy Letters written with PEN AND INK.

The Director of the Mint,
Washington, D.C.

Sir:-

I have made a most thorough investigation into the very high assays obtained by the Bureau Assayer from coins taken from Deliveries Nos. 8 and 12. Mr. Wheeler has assayed the samples sent us by you and has obtained practically the same results as Dr.Dewey. Mr. Wheeler's assays on these samples were mailed you yesterday. I am enclosing you letters and reports from the assayer, superintendent of coining, superintendent of melting and refining and the chief clerk showing the number of the melts delivered on February 21st,1919, the make-up of same, the fineness, the methods used in the various departments, etc.

Upon receiving your wire on March 23rd, we proceeded at once to investigate the cause for the very high assays you reported to us. We find that on February 21st,1919, melts Nos.573,574,575,576,577 and 578 - quarter dollar ingots - were melted by the ingot melting room and were later reported on by the Assayer who passed all the melts except No.576 which he condemned, the assay showing a fineness of 905.5.

I concur in the opinion of the Chief Clerk after a most thorough investigation that "this condemned melt evidently reached the coining department under a number other than 576". It is impossible for me

to discover who made this mistake. From the report of the Coiner you will see that the melts of February 21st,1919,were made into quarter dollars and appear to have been distributed into deliveries Nos. 8,10, 12,14, 16 and 22. The coins from these deliveries have all been shipped out except $2,000 from delivery No.8 which is still in the hands of the Cashier. I would like to have the Bureau allow me to mass melt this $2,000 and report the result of the assays to you and send samples of the same to you. As you can see from the report of the Coiner and the Assayer,I had the Assayer take 100 quarter dollar blanks on March 26th and as the reports show all were in the limit of tolerance, these being from coin in process of manufacture at that time.

The Assayer informs me that melt No.576 - quarter dollar ingots - is the only silver melt which he has condemned which was above the limit of tolerance during the last seven years. From this fact and all the other information I have been able to gather together in my investigation of this matter, I have come to the conclusion that this melt through some unaccountable mistake was sent to the Coiner under a wrong number.

For many years it has been the custom here to assay condemned coin from each delivery in order to avoid mistakes of this kind. It seems to me a precaution of this kind is absolutely necessary. We followed this method until ordered to discontinue it by the Bureau. If we had not discontinued this method,mistakes of this kind would have been absolutely impossible as we would unquestionably have caught one of the coins showing the high assay. I have always been at a loss to understand why we were

ordered to discontinue this safeguard which has met the approval of all the heads of the departments in this institution, and I would respectfully recommend that we be permitted to resume this precautionary measure.

After a most thorough investigation from every viewpoint with the assistance of the heads of the various departments I have come to the conclusion that this ingot melt No.576 was sent to the Coiner under another number and the coin became mixed with the above numbered deliveries, and I have given orders to the Superintendent of Melting & Refining to notify me of all condemned melts. I wish to assure you that every precaution will be taken to prevent the reoccurrence of this error which I deeply regret. I shall be pleased to furnish the Bureau with any further information you desire.

Respectfully,

Superintendent.

The Director of the Mint,
Washington, D.C.

Sir:-

I received your night letters of April the 8th advising me that you had decided to discontinue the electrolytic refinery in Denver for an indefinite period and requesting the transfer of Mr. Matson to New York. Upon receipt of your telegram I wired you that Mr.Matson would be pleased to return to New York,but thought that his expenses should be paid. By his expenses, he of course means railroad expenses for himself to New York City.

In my judgment your decision to close the refinery is a very good one,and I have thought it would be the right thing to do many times during the past year for the reason that our deposits have been falling off until at the present time I do not believe they are over 30% of the normal amount. As far as Colorado is concerned I believe this is due to the high cost of mining both in material and labor. About two weeks ago one of our largest depositors stopped sending their deposits to Denver for the reason - so I am informed - that they are getting a small bonus for their gold from other parties.

Respectfully,

Superintendent.

The Director of the Mint.
Washington. D . C .

Dear Sir;-

I wish to recommend Mr Josiah M .Hetrich for the position of Superintendent of Melting & Refining in place of Mr. Matson. I am making this recommendation as per your request in your telegram of yesterday. Mr. Hetrich was assistant melter and refiner at the U.S.Mint, Carson City, Nevada, and for five years was Assayer at the same institution. He has been employed here since 1906, as make-up clerk and is thoroughly familiar with the operations of the melting & refining department. He is a very competent man and is well qualified for a position of this kind. In my judgment he is the best qualified man in this institution for superintendent of the melting & refining department. I believe his appointment would be in the interest of efficiency and a just reward for a man who has given the Government many years of good and efficient service.

Respectfully,

Superintendent.

Sir:-

I am in receipt of your telegram of the 9th instant and regret very much that it will be impossible to cover Mr. Matson's transportation to New York.

Mr. Matson came to Denver from New York and brought his family and purchased new furniture, etc., at considerable expense and now it is necessary for him to return he finds that he will have to send his wife and family to his brother's home in South Dakota and that he cannot possibly receive more than half the price paid for his furniture. He informs me that taking all these things into consideration, he will be out of money coming to Denver and thought possibly the Bureau might find a way to pay his expenses from Denver to New York.

Sir:-

Referring to the Bureau's letter of March 25th in which you state "I beg to state that the Civil Service Commission will not permit the furlough of Mr. Fribourg and the immediate filling of his position by another clerk". On March 16th I wrote the Bureau recommending that Mr. C.F.W.Brierley be appointed weigh clerk in place of Mr. Fribourg who had been furloughed. Mr. Fribourg has had all of his vacation and sick leave and went to California for the purpose of regaining his health. Department Circular issued May 16,1913, Article 12 provides when an employe has exhausted his annual and sick leave recommendation should be made to the Department for leave without pay for such time as may be deemed necessary for his recovery and return to duty. I would ask the approval for leave of absence for Mr.Fribourg without pay for ninety days from March 1st,1920.

I have just received your wire advising me that you will ship enough ingots from Philadelphia mint to make two hundred thousand dollars in halves, quarters and dimes and requesting that I operate 24 hours in order to get same out as soon as possible. I have just wired you a reply that with present force can operate for sixteen hours and keep within the limit of the deficiency wage appropriation of sixteen thousand and five hundred dollars.

As you know this deficiency appropiration was caused by the employment of extra men during the time we were running twenty four hours overtime. The above amount is just enough to cover the wages of the men at present employed until June 30th. I am operating with five employees less than when the refinery was operating. I have been using some of the refinery men in the melting room in order to get a surplus of nickel and bronze ingots and some of the men have been employed in the coining department due to the fact that it was necessary to operate another roll since we have started press No.6 and this required an extra man in the press room. I have never employed any surplus men and you may be assured that I shall not keep any person employed here unless they can be employed to advantage.

Washington, D.C.

Sir:-

Referring to your letter of April 20th regarding the coins reported by the Bureau Assayer above and below the legal limit of fineness, I wish to assure you that I feel not only very much disappointed with the result but feel humiliated that coins of this kind should be sent out by this institution. I beg to assure you that there is no confusion or misunderstandings in any of the departments and since the first of the fiscal year we have had the utmost harmony throughout the building and I believe every man in the institution has done his best to make the institution a success. With the exception of this unfortunate incident, I do not believe any institution under your control excels this one in the prerequisite of harmony and efficiency of its personnel.

In my last report I sent you letters from the heads of the various departments so that you might be advised of the methods used by the various departments to prevent errors. At the time of writing that report I had not received the special report of the Bureau Assayer advising me that some of the coins were below the legal tolerance in fineness nor had I been advised of the findings of the Assay Commission which also found coins below the legal limit, hence my report was entirely in reference to the coins found above the legal fineness. I believed then and I believe now that "this condemned melt evidently reached the coining department under a number other than 576". This error was due either

to a wrong number being placed on the ingots in the ingot room or to switched samples in the assay department. After a rigid investigation to fix the responsibility for this error, I am unable to positively say which department was to blame or what particular person.

The men in charge of the make-up room, in the ingot room and in the assay department are the same who have been employed there for many years and are, I believe, the equals of any in the Mint Service, but to err is human and unquestionably a very serious slip took place at the particular time these ingots of inferior quality were manufactured and assayed. While the records of the melting & refining department show that the make-up was absolutely correct and the records of the assay department show that no ingots below 898.5 or above 901 were reported, it is obvious, after accepting without question the findings of the Bureau Assayer and the Assay Commission, that ingots below the legal tolerance escaped proper determination by our assay department, unless this may be properly explained in a letter from the Bureau Assayer dated May 6th, 1916, to the Director of the Mint and transmitted to the Superintendent of the Mint at Denver under date of May 11th, 1916, in which the following statement is made: "Two conclusions stand out prominently from these figures. The first is that, as at present carried out, our silver method is lacking in accuracy. The second is that there is absolutely no relation between the reported fineness of a melt of silver ingots and the reported fineness of individual coins made from that melt. There may be a difference of 3 in the reported fineness of coins from the same melt".

After a conference with the Assayer, I requested him to see that

proper tests were made from the time the ingot is manufactured until the finished coin is produced and to use every possible safeguard to prevent the reoccurrence of this unfortunate incident. Upon receiving the reports of the Bureau Assayer I have had several conferences with the heads of the various departments and have requested them to use every effort possible to prevent anything of this kind taking place again.

After the receipt of your letter of April 20th, we had a conference at which Mr. Leech, chief clerk; Mr. Wells, superintendent of coining; Mr. Wheeler, assayer, and Mr. Matson and Mr. Hetrich of the melting & refining department were present, each of whom read your letter. After considerable discussion I feel sure extraordinary care will be exercised to prevent a repetition of this error.

Respectfully,

Thomas Annear

Answering your letter of April 27th relative to Mexican coin silver on hand, I wish to advise you that Mr.Matson informed me that it would be necessary to have some fine silver in order to work up this Mexican silver,hence my letter of April 21st. However, Mr. Metrich,acting superintendent of the M & R department informs me that he has sufficient fine silver on hand to work up all the Mexican coin silver we have at this time. Therefore it will not be necessary to ship any fine silver at this time.

The Director of the Mint,
Washington, D.C.

Sir:-

I have received your telegrams of May 15th and 20th regarding the price to be paid for silver under the operation of the Pittman Act. As I understand it, I am to pay $1 per ounce for all silver deposited in the mint that is mined within the United States when the market price of silver is below $1., and all other silver deposited to be paid for as at present, that is, the market price less the fraction. When the market price of silver is over $1 per ounce we are to pay as at present. Any depositor that does not make an affidavit as to the source of his silver, will be paid as at present, the market price less the fraction. Regarding the affidavits to be filed by the depositor, I wish to know if the affidavit of the mill or smelter will be sufficient. Many mills receive their deposits from fifty to seventy five mines and I do not believe it will be practicable for them to file an affidavit from each mine or miner who may send ore to their mill for treatment. Many of the mills receive ore from lessees or prospectors in small amounts who are working one place today and another tomorrow, and I would suggest that the affidavit of the mill as to the origin of the silver be sufficient. Some mines have their own mills and do no custom work and of course send direct to the mint. Such companies would make affidavits

for both mine and mill and in this case it seems to me the affidavit of the mill manager would be sufficient. There are also quite a number of assayers who deposit at the mint who purchase ore and bullion in small amount and when they have collected an amount large enough they deposit it at this institution. It would hardly be possible for these people to get affidavits from all the men who bring silver in various forms to their office. These assayers are all operating and purchasing bullion under the Colorado law which provides that each one must pay a $1,000 each year for a license before purchasing bullion or ore of any kind. It seems to me the most practicable way would be for the depositor to make an affidavit as to the origin of the deposit whether such depositor be assayer, or the representative of a mine or mill. This would make it necessary for only one affidavit for each deposit. I do not see any other way in which the provisions of this law can be put into practical operation. It would be unjust to the American depositor to ask him to accept $1 per ounce if the market price of silver should be above that price, and it would give him the advantage if we were to give him $1 per ounce when the market price is below that price.

Will it be necessary to make separate abstract sheets for bullion purchased under the provisions of this Act, or have you suggestions as to changes in the customary accounts because of this dollar payment. Kindly forward blank affidavits, etc., at your earliest convenience.

Respectfully,

Thomas Addison

W.H.Robinson; Born January 20th,1850. Foreman Rolling Room. $5.50 per day. Entered Mint service at Mint at New Orleans Aug 1st,1878. at Denver Sept 25th,1905. Sight very

A.W.Robinson;- Born November 2d,18[illegible]. Colored Janitor. Salary $3.00 per day. Entered Mint service at U.S.Mint Denver, Oct 1st,1904. Been here ever since. Carried on the rolls as unclassified laborer.

J.A.Hetrich;- Born Feb 25th, 1846. Supt Melting and Refining Department. Salary $3.000.00 per annum. Enteren Mint service Aug 12th, 1874. Seperated from the service Nov,6th,1885. Returned to the Mint service August 14th,1900 and been in the service ever since. I wish to recommend that Mr Hetrich be retained in his present position. He is a very efficient and competent man and renders the very best service.

The above are the only employes in the operating departments that are 65 years of age and who have served 15 years in the government service. Mr Hetrich is the only employe who is not in the operating deaprtments who has served fifteen years or more and who has arrived at seventy years of age. I have no other employes who will be eligible for retirement by August 22d,1920. I would respectfully recommend that all the above employes be retired with the exception of Mr Hetrich,in the interests of efficiency and good management. While it is true Mr J.E.Phillips will not have served fifteen years in the government service,unless his army service be taken into account,I would recommend that he be retired at once for disability as provided in the retirement act.

Respectfully Submitted.

Sir:

Referring to large shipments of gold coin from time to time on Treasurer's order, one of which is being made today, I have to advise you that we have but one and one-half millions in double eagles remaining in an unsealed compartment of the vault. The only other compartment containing double eagles (twenty million dollars) is sealed and also contains eagles (ten million dollars) which cover the double eagle sacks.

I thought proper to suggest that you might arrange with the Treasurer, in the event of other large gold coin shipments from this Mint before our settlement or during same, that he either designate eagles or half eagles (in each demonination of which we have an ample store in unsealed compartments) if his plans are not materially affected by such arrangement.

I am enclosing a schedule of proposals to furnish this institution certain supplies and service during the fiscal year 1921. I find that owing to industrial uncertainties business firms are very reluctant to contract or if they so do are disposed to submit figures of an exorbitant character as a safe guard against raising markets. Only one proposal for laundry work and one for ice could be obtained. I have thought it unwise as to certain other classifications of necessary materials to even invite proposals as I feel quite certain more advantageous quotations, when required, can be obtained on the open market.

The item of fuel oil is of such importance that I prefer to discuss it in another letter.

Dear Sir:

I am enclosing you bid of the Continental Oil Company for fuel oil for the fiscal year 1921 at 15½ cents per gallon. I found it impossible to get any other company to offer a bid on this proposition. The price of 15½ cents is exceedingly high but the company has notified me that this offer would remain good for five days from to-day. I believe it will be impossible to get a lower bid. In the past we have paid from 8½ to 9 cents a gallon for this same kind of oil.

I wish you would kindly wire me if this bid meets with your approval in order that I may secure the oil at this price.

I have taken up the matter with the Denver Gas & Electric Company of supplying the Mint with gas and when I hear from them will submit their proposition. I thought possibly we might be able to get a price on gas that would justify us in using gas in place of oil.

Dear Sir;-

After August 20th all the guards who have arrived at retirement age will be placed on the retired list. Others will be retired next January. This will all mean that in the future it will be necessary to have younger and more efficient guards. In the past many men accepted the position of guard because they had arrived at an age where they were willing to accept a position where the duties were not difficult even tho the salary was small. In the future it will be necessary to have younger and more efficient men. It will be a rather difficult matter to get men for good guards--and that is the kind we should have--for a compensation of $900.00 per annum. It is not sufficient for a man to support a family decently under present living conditions. It does not seem to me that we ought to ask any man to work for a wage of that kind. Would you consider a recommendation to raise the salary of the guards from $900.00 per annum to $1200.00. This would make $100.00 per month for thirty days per month. If you will approve I will make the recommendation with much pleasure. Will you kindly let me hear from you in the matter.

Dear Sir;-

I wish to recommend that the compensation of the following employes be changed;-

Ernest F.Moessner,Scale Repairer	from $5.50	per day to	$6.00 per day.
Otto W.Laase Fireman in Charge	From 4.50	per day to	5.00 per day.
John F.Tinker,Skilled Workman	from 5.00	per day to	5.50 per day.

Mr Moessner is one of the most skillful men I have ever met in his line and is worthy of this advance. Otto W.Laase is an engineer and is designated at Fireman in Charge. John F.Tinker Skilled Workman is the carpenter here.

The above men are all very competent and skillful in their lines and I feel quite sure can command a greater salary on the outside than the amounts I have recommended. I wish to retain them in the government service on account of their ability. I trust these recommendations will meet with your approval.

The Director of the Mint.
Washington. D . C .

Dear Sir;-

I have your letter of July 10th regarding the matter I discussed with the Secretary of the 12th Civil Service District on his recent visit to Denver. I did not write Mr Snyder about the matter referred to in your letter. On his recent visit here I told him, that in my judgement a Helper should not be required to take the third grade educational test. I recommended to him a non educational test for helper. Several times, men who were well qualified in every way for the position of helper have failed to pass the sub clerical examination. In fact some of the very best temporary helpers we have ever employed in this institution have either failed to pass the examination or were so far down on the list that they could not be reached. There is nothing in the position of helper that requires an educational test in my opidion and I so informed the secretary.
Trusting the above is the information you wish, I am,

Sincerely Yours,

Superintendent.

Dear Sir;-

I have your letter of July 19th regarding the manufacture of 35.000.000 pieces of coin for the Columbian government. Having never coined any money for these people I do not know the size of these coins. If they are the same size as ours no new equipment will be neccessary. However if they are not I will need;-New punches and dies for the planchette machines, counting boards, new discs and segments for the mills, feeders, tubes and fingers for the presses. I thought possibly the Mint at Philadelphia might have these things and you would have them sent here so that there would be no delay in starting. Otherwise it will be neccessary to make them here which will take some time. The banks in this territory and the Treasurer of the United States have taken our production as rapidly as produced and at this time we have no balance except in dimes. Will you kindly let me know if you desire our six presses to run on this coin or part on this order and part on domestic coin. With our six presses running entirely on Columbian coin it will take about six months to complete this order running eight hours per day. Usually the demand for coin is greater from August to January in Denver than at any other part of the year from the banks in this territory and the south west. Will you kindly let me know your desires in the matter and oblige,

Yours Very Truly.

I wish to recommend the following changes for your consideration.

Marshall H. White Supt of Machinery and Chief Electrician,
From $6.50 per day to $7.00 per day.

George H. Smith Captain of the Guard, From $4.50 to $5.00 per day.

Mr White is a most competent man and fills both of the above positions. Before his appointment they were filled by two men. I consider him one of the most competent men in his line in this city.

Mr Smith has been in the service for twenty six years. When he entered the service he received $5.00 per day and was later placed as a melter at $4.50 per day. Mr Smith acts as Captain of the Guard and also looks after the visitors to the mint.

I trust the above recommendations will receive your favorable consideration.

August 2nd, 1920.

The Director of the Mint,
Washington, D.C.

Sir:-

Mr. Minrichs returned home from the East today and informs me that you had requested him to ask me to write you concerning what would be necessary to increase the output of the Denver mint. It will give me much pleasure to do so. We should have two new coining presses, one cutting machine and one or two new rolls. We have two old rolls which were sent here from Philadelphia which the machinists have them in fairly good working order. These two rolls are not very efficient and do not fill the bill like a larger roll would do. It takes the same amount of labor and cost to operate an inefficient machine as it would a good machine that would do the work well. I want the two new rolls to take the place of these old rolls. This would increase our output to a large extent at a small outlay of money and labor.

Another matter to which I would call your attention is the price of oil for melting. Before the war fuel oil was delivered at the mint at 6 to 6½ cents per gallon. The cheapest we could get oil for this year is 15½ cents per gallon and the company reserves the right to increase the price at any time there is an increased freight rate or when the price in the Big Muddy field for crude is greater than $2.70 per barrel. I found it impossible to get a better bid than this on oil for the coming year. It seems to me with the advancing price of oil it would be well to consider the proposition of putting in an ele-

tric furnace for the melting of copper and nickel. From the indications at this time in Denver fuel oil will show another large advance next year. We are getting electric current for .01¢ per KWH. At this price it seems to me we could save a great deal of money to have an electric furnace installed.

As you know, Congress appropriated $90,000 for our contingent fund. With the refinery shut down it will not require over one half of that amount for this year. This will leave a balance of $45,000 for the installation of this equipment. I believe the above would add greatly to our efficiency and would be money well spent and would respectfully recommend that the same be installed.

Trusting that these recommendations will meet with your approval, I am

Yours very truly,

Superintendent.

August 2nd, 1928.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose an application by James O.Harrington for the position of guard at this institution with compensation at the rate of $900 per annum and would recommend that he be appointed to said position if he is eligible under the Civil Service regulations, effective from date of oath.

Sir:-

Last evening about 7 o'clock the guard at the mint called me over the phone and informed me that there was a telegram at the mint. I came down about eight o'clock and found your telegram regarding the report made to you by Mr. Goddard concerning two temporary employees, Mr. C.F.Dunsmore and J.A.Clifford. I have dismissed both of these men.

Mr. Goddard called at my office some time ago and informed me that Mr. Dunsmore was engaged in driving a taxi each evening after he was through at the mint for the Denver Omnibus & Cab Company. He said he had been accused of making extra drives and holding out on the company. I have been unable to verify this statement of Mr. Goddard's; however, I called up the Cab Company this morning and was informed that Mr. Dunsmore was still in their employ and giving satisfactory service. Mr. Goddard informed me that Mr. Clifford had been talking around town and that he had once been employed by the Meyer Drug Company and that he had found it very easy to change receipts and hold out on the company. As I understand it the charges were not proven in either case. I appointed these men as temporary employees on first class recommendations. I have known Mr.Clifford's father for over thirty years and know his family very well. Both of these men proved very efficient and competent employees. However, I always make it a rule not to place any temporary employe in a position where there is

a chance to steal anything. These two men were employed in the rolling room and melting room, rolling and melting nickel and copper and their duties did not require them in the press room at any time and at no time since they have been employed here have they done anything which would reflect on their honesty. I certainly do not wish to have anybody employed in the mint against whom there is a suspicion of dishonesty. However, the men were dismissed before the receipt of your telegram and I trust my action will meet with your approval.

Thomas Atkinson

UNITED STATES MINT AT DENVER. August 14th,1920.

Respectfully returned with the information that Mr. Betrich is in first class physical condition and is one of the one of the very best and most efficient men in this institution for the position which he fills. I most earnstly recommend that he be not retired because his services are needed at this institution. His sick leave is as follows: 1915 0 days, 1916 26 days; 1917 0 days; 1918 30 days and 1919 30 days, 1920 0 days; The absence during 1918 and 1919 was caused by an accident when he slipped on the ice on the street and dislocated his shoulder and broke his arm. He is all right now physically.

The Director of the Mint,

Sir:-

Referring to your letter of the 14th instant (F), I return herewith deposit certificate No.1637, which lacked signature, also affidavits pertinent to deposits Nos.1585 and 1625 perfected as requested.

I also enclose affidavit in support of deposit No.1616 which was in some way omitted when warrants for the quarter were forwarded.

Advantage of a 2% discount in payment of Voucher No.318 could not be taken because of circumstances connected with the delivery of the material at intervals and some necessary exchanges and analyses.

Voucher No.328 in favor of the Mountain States Telephone & Telegraph Company was properly prepared at the rate of $13 per month, the contract providing as follows: Switchboard $4.00; 1st trunk line $4.00; 2nd trunk line $2.00; 4 branches .75 each, total $13.00, and the explanation is made that former variations from these figures in the preparation of vouchers for this service were made necessary by rulings of the Postmaster General when this utility was under his supervision and also by intervening decisions of the State Utilities Commission of Colorado.

Voucher No.353 - Hendrie & Bolthoff M & S Co - was prepared

for 12 ½" cold chisels at the unit price of $1.98 because this is the largest size cold chisel catalogued by the company and it erred in specifying 2". After the order was placed it was found advisable to double the quantity originally specified, the dealer consenting thereto and advising that the unit price would not be affected by the change in quantity.

Touching exigency purchase on vouchers Nos.344,345 and 374, the first, covering table salt at a total cost of 75 cents, was due to a peremptory need in a refinery operation connected with the cleanup and was regarded as furthermore permissible because this staple rules at a uniform price by dealers generally. The items of other exigency vouchers were for breakdown use and totalling $1.86 and $2.21 respectively were viewed as somewhat inconsequential from the standpoint of value and being tees and taper pins not fluctuating in market prices of different supply houses.

Your detailed explanation of the employment of the methods indicated on reverse of voucher form covering purchases is acknowledged and noted and I am glad to say perfectly agrees with the understanding and construction of these subdivisions which has always held here and which it has been our conscientious effort to invariably carry out as it shall be in the future. Permit me to say, however, in extenuation, if such is necessary, of apparent lapses during the last year or two in these matters that exceeding difficulty has been experienced not infrequently in the purchase of supplies due to unprecedented obstacles,

encountered by supply houses of Denver in obtaining materials from factory centers and often the simplest attachments and chemicals have only been secured by the mint after securing the local markets and probably finally obtained as in stock by single dealer.

Respectfully,

Acting Superintendent.

October 25rd,1920.

The Director of the Mint,
Washington, D.C.

Sir:-

I have this day received a letter from the Acting Commissioner of Pensions,a copy of which I am enclosing. On June 9th,1920,I recommended Mrs. Kennedy for retirement under the provisions of the retirement act which provides "That mechanics,city and rural letters carriers,post office clerks shall be eligible for retirement at 65 years of age",etc., Mrs. Kennedy was employed in the operating department as a selector or helper doing exactly the same work that the men helpers were doing when on the selecting table. I naturally supposed that she came under the provisions of the act allowing retirement at 65 years of age. Mrs. Kennedy has been in the mint service since July 23rd,1884; she has been a loyal and faithful employe and should receive the benefit of the retirement act.

If she cannot be retired under the decision of the Acting Commissioner as per the enclosed letter, I would respectfully request that she be reinstated to her former position as helper at $3.50 per day.

There are many men employed in this institution in the operating departments who are mechanics and are carried on the rolls as helper; they are employed in the rolling room,in the press room,and in the melting room and various other parts of the plant. If these men do not come under the [illegible]

of age. I would also request a ruling on the question of skilled workmen. All the men in the operating departments of this institution are either helpers or skilled workmen and are carried as such on the rolls. I wish to ask if skilled workmen come under the head of mechanic.

I trust that you will approve the reinstatement of Mrs.Kennedy.

Respectfully,

Sir:-

Referring to the new form of pay roll which has been received this day in accordance with your letter of the 21st instant, I have to advise that we have no typewriter large enough to accommodate this form without much bending and consequent inconvenience its preparation,and it has occurred to me that possibly among the typewriters not now in use in the storeroom of the Treasury there might be one in good condition with small type and a 16 inch carriage which could be used for this purpose.

If no such machine is on hand which could be sent out here, I have to request authority to purchase one Underwood typewriter with a 16 inch carriage for the sum of $81.00,which I am advised is the Government price on this machine.

Sir:-

Just received your telegram regarding the melting of uncurrent silver dollars we received from the Subtreasury. On receipt of your telegram I immediately stopped melting these dollars. It has been a rule in this institution ever since the Mint started operations to melt the uncurrent silver coin received during the month. In 1916 we melted over 360,000 ounces and in 1917 over 300,000 ounces of silver coin.

I wish you would kindly advise me what we should do with this uncurrent silver. We have melted approximately $130,000. $112,000.

The Director of the Mint.
Washington. D. C.

Dear Sir:-

When I was in Washington I spoke to you about some new coining presses for this institution. You told me I might go ahead and make some. I have ordered the castings made from the Western Iron Foundry for three presses, with whom we have a yearly contract for castings. I am submitting the forgings and such mill work as cannot be done at the mint to three different people in this city. I wish to know if it will be necessary for me to send these bids into the Bureau before accepting the lowest bid and also the bid on three motors for these presses? We will have a plenty of money in the contingent fund to pay for these presses and will turn a nice surplus back at the end of the year. I am satisfied that these presses can be made much cheaper than at Philadelphia and will also save the price of the freight from there to Denver. I shall keep a close tab on the cost and will notify you of the same when they are completed. I wish you would advise me as soon as possible.

Respectfully,

Thomas Annear

Sometime ago I received a wire from you to discontinue working overtime which order I complied with at once. I shut down the overtime work in the rolling room the next day after I received your message, the next day after I discontinued overtime work in the ingot room and in the annealing room and Saturday night discontinued overtime work in the press room.

We have delivered to date 6,000,000 one centavos and 2,580,000 two centavos, making a total of 8,580,000 piecas. This will leave a balance of 14,000,000 one centavos, and 12,420,000 two centavos, or a total of 26,800,000 pieces.

I am running four presses on this Columbian coin and two presses on domestic coin running eight hours per day with four presses on Columbian coin it will take the balance of the fiscal year to complete this order. The Treasurer orders out our domestic coinage about as fast as we make it.

We have on hand at this time $550. in dimes, $2,000 in quarter dollars and $4,800. in half dollars, and small balances in nickels and pennies.

Is it your wish that I shall continue on nickel and cents or when I get a balance ahead on these two denominations do you wish me to make some dimes and quarters, in order to meet the demand of the local banks?

The Director of the Mint,

Sir:

Yesterday I wired you as follows:

"Will have all silver melted in about ten days. Have nine hundred and five thousand eight thirty two uncurrent standard silver dollars subject to your order."

This morning I received your wire of this date:

"Please advise Bureau by wire amount silver on hand purchased by you under terms Pitman Act, not including that resulting from melting silver dollars. Do not under any circumstance melt any uncurrent silver dollars without specific authority from this Bureau."

I just wired you reply giving you the number of ounces purchased under the provisions of the Pitman Act and also the amount available for melting into ingots.

The Superintendent of the M&R department informs me that he will have only enough silver for the ingotroom for about ten days, after that time it will be necessary to have more silver if we are to continue melting silver ingots.

You may rest assured that no uncurrent silver dollars will be melted under any circumstances without an order from you authorizing me to do so.

Yours truly,

Thomas Annan

Sir:-

Referring to your letter of the 9th instant (F), as requested by you, I have asked the Liberty Bell Gold Mining Co., to supply affidavits to the effect that all dollar silver bullion heretofore deposited by said company was mined and smelted by it as well as deposited by the company itself.

Payments to E.C.Wilson and Kate E.Kennedy for a portion of the last half of August were not made on sub-vouchers but by check as noted on the roll, which is customary in such transactions here. The over-payment of 50 cents by check No. 5334 to E.C.Wilson was a bonus excess which was deposited in Federal Reserve Branch Bank, Denver, September 8th, 1920, C.D.No. 3, to credit of the checking account instead of to the appropriation itself. This deposit was shown on Cashier's daily statement of same date.

Sir:

The Assay Department of this institution is in need of two stills for the purpose of making distilled water. The ones we have here now have been in the institution for twelve or thirteen years and are about worn out.

The Collector of Internal Revenue in Denver receives quite a number of stills that are taken from men making moonshine. These stills have been destroyed in the past. I thought possibly you could get an order from the Secretary of the Treasury authorizing the Collector of Internal Revenue in Denver to transfer two of these stills for the use of our Assay Department. This would save several hundred dollars because if we cannot get these stills it will be necessary to purchase new ones.

Trusting this matter will receive your approval, I am

Replying to your letter of January 14th last, regarding my request for a multigraph for the use of this institution, I have to advise you that I consider the need of such a machine continuous. Many forms and reports necessary to the conduct of the business of the General, Coiner, Melter& Refiner and the Assay Departments are at present made on a mimeograph which often does not give good results as would a multigraph, which also is a time saver.

Obsolete forms and waste paper principally are used in making these forms. The size of this waste paper is often such that the mimeograph does not handle it satisfactorily.

Our Cashier's department has only about two weeks' supply of fine gold from which he makes his exchanges for the deposits of manufacturing jewelers and others upon request.

All of our gold certificate bars are under seal which it would seem inadvisable to request permission to break, considering the comparatively small amount of fine gold required for these exchanges during the remainder of this fiscal year. Therefore, I have to ask that you will arrange the transfer to this institution from the New York Assay office, or elsewhere of about $30,000 in fine gold cast in the usual refinery cathode moulds. Mr. S. F. Dubs, Jr.
Douglas Assay Company.
Douglas, Arizona.

Sir:

Referring to your telegram of February 14th and deposit of silver matte. Some time ago we advised you that we did not care to handle such material. Your deposit was condemned by the Deposit Melter and you would have been advised had we not expected Mr. Hoot here to confer with us as to what disposition to make of it. At his request, we accepted same and ran it down with the understanding that the slag was not to be retreated but returned to you. We are not operating a smelter and in the future you will please reduce such material to bullion, otherwise it will be rejected. Enclosed find regulations.

Respectfully,

Superintendent.

February 16th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to request that you will please have 20 reverse and 10 obverse 1-Centavo dies for Colombian coinage forwarded to this institution as early as convenient.

Respectfully,

Superintendent.

February 16th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to advise that this institution is in need of two sets of steel rolls (2 rolls each), those now in use being badly worn, and I have accordingly obtained the enclosed proposals and would request authority to accept the bid of the Bethlehem Steel Company, in amount $641.37 each, being the lower of the three received.

Respectfully,

Superintendent.

February 19, 1921.

The Director of the Mint,

Washington, D. C.

Sir:

Referring to your letter of the 16th inst., (F) with reference to accounts for quarter ended December 31,1920, I have to enclose the supporting papers requested.

Respectfully,

Superintendent.

February 20th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to your telegram of even date, the Bureau laboratory is indebted to this institution as follows:

Special Assay coin, 12 halves, 6 quarters, 24 dimes.

Fine gold samples as per 1920 settlement sheets and still outstanding 4.214 Troy ounces.

Respectfully,

Superintendent.

February 25th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose the resignation of George B.Walker, temporary helper at this institution at $4.00 per day, which I have accepted to take effect at noon on the 24th instant.

Respectfully,

Superintendent.

February 25th,1921.

The Director of the Mint,

Sir:-

To enable me to meet the expenditures of this institution for the month ending March 31st,1921, I have to request that you will cause a requisition to be drawn upon the Secretary of the Treasury against the appropriations for the support of this institution for the fiscal year ending June 30th,1921, in the following amounts with which I am to be held accountable under my bond dated July 1st,1917:

Salaries of Officers and Clerks,	$4,000.00
Wages of Workmen,	8,000.00
Increased Compensation allowed,	2,000.00
Contingent Expenses,	3,000.00
Total,	$17,000.00

Respectfully,

Superintendent.

February 28th, 1921.

The Director of the Mint,
Washington, D.C.

Sir:-

We are receiving quite a large amount of current and uncurrent silver dollars from the Federal Reserve Banks and Subtreasuries which are being placed in our large storage vault. There are three compartments in this vault which are only partially filled, Compartment No.8 contains 2,305 certificate bars; compartment No.10 contains 1,131 certificate bars and compartment No.18 contains 409,696.51 ounces of gold ingots. The contents of these three compartments could all be placed in one compartment and in this manner give us two empty compartments for the storing of the silver we are receiving. All of these three compartments are under seal, and I wish your permission to break the seals of the three compartments and to place all of these certificate bars and gold ingots in one compartment.

Trusting the above will meet with your approval, I am

Respectfully,

Sir:-

I have to advise that the following changes were made in the personnel of this institution during the month of February, 1921:

Promotions.

J.F.Tinker, skilled workman, increased from $6.00 per day to $6.50 per day, Feb.1st.

Patrick Ryan, foreman light melting, increased from $6.50 per day to $7.00 per day, " 1st.

R.C.Waters, changed from helper at $4.50 per day to skilled workman at $5.00 per day, " 1st.

Reinstatements.

K.G.Bell, skilled workman at $5.00 per day, " 1st.

Resignations.

G.B.Walker, temporary helper at $4.00 per day, noon, " 24th.

Respectfully,

Superintendent.

March 8th, 1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I am enclosing a quotation from the Mountain States Machinery Company of this city - agents for the Crocker-Wheeler Company here - for one armature complete for Crocker-Wheeler motor No.333, in amount $279.00.

In explanation of the necessity for purchasing this armature, I would say that it is to be held in reserve for use on the rolls in case any one of the three armatures now in use should for any reason give out, in which event it would be necessary to discontinue the use of that roll until the armature could be rewound. Owing to the importance of preventing such a contingency, I have to request authority to purchase this extra armature.

Respectfully,

Superintendent.

March 9th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose the official bond of J.C.Wells executed in the penal sum of $25,000 and bearing date of March 8th,1921. Premium receipt attached.

Please also find premium receipts on the official bonds of -

Ambrose J.Aurand,	in amount	$6.75

Sir:-

I have to request that 75 copies of Form No.193 - sample enclosed - be forwarded to this institution as soon as convenient, 3 copies only being on hand.

Respectfully,

Superintendent.

March 11th, 1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to report the result of the counting of silver dollars recently received from the Assistant Treasurer, U.S. at Chicago:

Current Dollars.

$3,749,000.

One sack $2. short; 3 sacks $1. short each; 2 sacks each contained 50 cent piece instead of dollar. Total shortage, $6.
3 sacks each $1 over, Total overage $3.00.
Net shortage $3.00.

Uncurrent Dollars.

$1,017,000.

Melted, 111,168.

$ 905,832. To count.

1 sack $2. short; 9 sacks $1. short each. Total shortage $11.00.
1 sack $1. over. Net shortage, $10.00.

Tags from sacks in which these discrepancies were found have been forwarded the Assistant Treasurer at Chicago with the request that he remit $13.00 to clear this account.

Respectfully,

Superintendent.

March 16th, 1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to report the results of the counting of silver dollars received from the Assistant Treasurer, U.S. at Saint Louis:

Current.
$679,000.00

2 sacks were found each $1 short.

Uncurrent.
$1,353,000.00

11 sacks were found each $1. short, and 1 sack $2. short.
1 sack was found $1. over. Net shortage $12.00.

This completes the counting of all gold and silver coin received from the late Assistant Treasurers at Chicago and Saint Louis. We are now counting silver and minor coin received from Federal Reserve banks.

Respectfully,

Superintendent.

March 16th, 1921. 332

The Treasurer of the United States,
Washington, D.C.

Sir:-

Referring to your letter of the 12th instant (WJW), I have to advise you that the counting of all coin received from the late Assistant Treasurers at Chicago and Saint Louis was this day completed with the following net results:

Chicago.

On February 1st I reported to the Director of the Mint that of the $20,670,000.00 gold coin received from the Assistant Treasurer at Chicago, there were found upon count 4 half eagles missing. Refund of this $20. was made by the late Assistant Treasurer on March 5th. On March 11th I reported to the Director that of the $3,749,000.00 current silver dollars received from Chicago, 3 were found missing and of the $1,017,000. uncurrent silver dollars from Chicago, 10 were found missing. Request for a total shortage of $13. has been made but remittance not yet received.

Saint Louis.

On February 2nd I reported to the Director that the $8,921,793.50 current and uncurrent gold coin received from the Assistant Treasurer at Saint Louis was found by count as invoiced. Report was previously made, after melting and assay, on $85,515.00 light weight gold coin from

Saint Louis.

Of $679,000.00 current silver dollars, 2 were found missing and of $1,353,000.00 uncurrent silver dollars, 12 were found missing. Request is being made this day of the late Assistant Treasurer at Saint Louis for a remittance of $14.00.

Respectfully,

Superintendent.

March 17th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to request authority to discontinue the services of H.J.Crim, temporary machinist at this institution at $6.00 per day, at the close of business on the 19th instant, there being no further necessity therefor.

Respectfully,

Superintendent.

March 19th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to recommend that the compensation of J.H. Hapenny, at present employed as skilled workman at $6.00 per day, be increased to $6.50 per day, without change in designation, and that the same be effective from April 1st,1921.

Mr. Hapenny is employed as machinist but is carried on the pay roll as skilled workman.

Respectfully,

Superintendent.

March 19th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to enclose the official bond of James H. Mapenny in the penal sum of $3,000 and bearing date of February 21st,1921.

Respectfully,

Superintendent.

March 21st, 1921.

The Director of the Mint,
Washington, D.C.

Sir:-

I have to request that you will please have manufactured and forwarded to this institution the following coin collars:

9 Half Dollar collars for large presses.

10 Quarter Dollar collars for large presses.

6 " " " " small "

18 Dime collars for large presses.

6 do small "

18 5-Cent collars for large presses.

Respectfully,

Superintendent.

March 25th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

To enable me to meet the expenditures of this institution for the month ending April 30th,1921, I have to request that you will cause a requisition to be drawn upon the Secretary of the Treasury against the appropriations for the support of this institution for the fiscal year ending June 30th,1921, in the following amounts with which I am to be held accountable under my bond dated July 1st,1917:

Salaries of Officers and Clerks,	$ 3,000.
Wages of Workmen,	9,000.
Increased compensation allowed,	2,000.
Contingent Expenses,	5,000.
Total,	$ 19,000.00

Respectfully,

Superintendent.

March 25th,1921.

The Director of the Mint,
Washington, D.C.

Sir:-

Referring to the application of Mr.A.L.Fribourg for retirement on account of disability,will you kindly advise me as to the status of his case at the present time.

Mr. G.F.W.Brierley has been performing the duties of weigh clerk here since Mr. Fribourg was granted leave without pay on October 5th,1920, and I would like very much to advance him to that position as soon as it can be done without interferring with Mr. Fribourg's application for a pension under the Retirement Act.

Respectfully,

Superintendent.

March 30, 1921.

The Director of the Mint,
Washington, D. C.

Sir:

I am enclosing you two letters from the Hamilton & Hansell Company, addressed to the Denver Gas & Electric Light Company of this city.

Sometime ago the Denver Gas Company's representative came to the Mint and said that he understood that an electric furnace had been installed in the Philadelphia Mint and one at the San Francisco Mint. He asked me if there was any show to put one in at the Denver Mint. I informed him that this matter was entirely in the hands of the Director of the Mint, who was the only person authorized to purchase anything of this kind, however, he went ahead, it seems, and got bids for 1-ton furnace and also for the 1000 pound furnace, which I am enclosing for your consideration and advice.

Melting in the Denver Mint is getting more expensive all the time - we used to get oil for melting purposes for 5½¢ a gallon, now we are paying 15¢, and I am looking for another advance in the near future.

With electricity at [redacted] kilowat - the cheapest electric power, I understand, in the service, and a great saving could be made with the use of an electric furnace.

I would like to recommend for your consideration the installation of a 1000 pound furnace. I am making this recommendation in the interest of economy and efficiency, and trust the same will meet with your approval.

Yours truly,

Superintendent.

Sir:-

Replying to the communication from the U.S.Civil Service Commission under date of March 19th - which is herewith returned,relative to the status of F.W.Frewing, I have to say that Mr. Frewing was appointed a skilled workman at this institution on August 6th,1918, his name having been selected from the list of eligibles furnished me by the District Secretary at San Francisco, and although Mr. Frewing was appointed at that time to take the place of Mr.W.L.Gunther who had been granted an indefinite furlough, it was my intention that Mr. Frewing's appointment should be considered a permanent one and not temporary as the Civil Service Commission seems to have construed it.

On September 1st,1920,Mr. Frewing was promoted to succeed W.H. Robinson,retired,as foreman of the rolling & cutting room at $5.50 per day, in which capacity he is now serving,his promotion being approved by the Secretary of the Treasury on August 17th,1920. Mr. Frewing has proved a faithful and efficient employe and I trust the records of the Civil Service Commission will be changed so as to carry him as one of the permanent employes of this institution.

Superintendent.

Sirs:-

Referring to your letter of the 1st instant returning memorandum of deposit of your client Valdez, you are advised that a re-assay of the deposit verifies the original determination of 931⅛ parts silver.

The Government pays the market quotation upon day bullion is received, less the fraction, which made 54 cents the correct rate of payment that day.

Memorandum returned herewith.

Director of Mint,
Washington.

Answering your telegram April seventh can run rolling room sixteen hours and four presses in coining room eight or ten hours on dollars. We have two presses that are too small for coining dollars. Will require forty tubes and twenty baskets for weighing machines; four feeders for presses. Will need four sets punches and dies for cutting presses, punches and dies to suit head of our punching presses. Can Philadelphia mint make these for us. We will make our own moulds and fingers here. Can turn out one hundred thousand per day and more if possible. Can start four days after receipt of equipment. We are assuming the new dollar is same size as old dollar. Please advise if you wish us to proceed to prepare for this coinage.

Sir:-

Replying to your letter of April 27th regarding the room under our storage vault, I am enclosing you a sketch showing the size of the room. This room is 60'6" long, 18'6" wide and 7' high. I have taken up the matter with Mr.White regarding what would be necessary to utilize this space to the best possible advantage for the storage of coin. Mr.White suggests that we put a shute in from the basement f floor to the small compartment to the foot of the stairway and a small canvas belt elevator along side of this shute,the shute to be used for lowering the coin and the belt elevator for raising it out. These two things could be installed without very much cost and in my judgment would be very efficient and economical and would not be expensive to operate. Of course it would be necessary to have a new vault door installed and it will also be necessary to stop of the ventilators. We can use a fan in place of the ventilators when we are using the vault. There are no representatives of the Supervising Architect in Denver at this time and therefore it has been impossible for me to take the matter up with them. I believe they have a drawing of this vault and the room under the vault in the Supervising Architect's office in Washington which might give you more information than the enclosed sketch.

Trusting this is the information you wish,I am

Yours truly,

Referring to your letter of the 26th ultimo (F.), I would explain items in the expense accounts for the quarter ended March 31st,1921, as follows:

January voucher No.108 - covered an exigency purchase of sponges and chamois skins from a traveling salesman whose samples submitted were of a very superior quality and the prices quite below those charged for inferior grades in these articles by local dealers. No proposal of a written character was filed in this transaction.

March voucher No.159 - covered iron castings of a value of $686.72 secured by me upon returning from the East where verbal authority was given me by the Director of the Mint to initiate steps for the construction of certain coining presses,which authority was revoked some months thereafter.

March voucher No.173 - covered the purchase of two motors peremptorily required to take the place of vital equipment which had outlived its usefulness. In this instance the authority of the Bureau was taken to have been included with the urgent call for speedy dollar coinage and overtime service.

Assay report numbered 1 with notation "Grains bar" was forwarded in error as it covered an internal operation strictly.

Sir:

I have to request authority to reinstate William H. Welsh as a melter at $5 per day, effective July 16, 1921.

Mr. Welsh resigned his place as a melter at $4.00 per day on June 25, 1920, but has been steadily employed here as a melter (temporary) at $5 per day since April 20, 1921. He is a good workman, and his reinstatement is recommended by the foreman of the Ingot Melting Room.

The Director of the Mint,

Sir:

Referring to your telegram of even date, concerning the employment of temporary assayers here as recommended in my wire of the twelfth instant, I would say, that before telegraphing you I went into this matter very thoroughly with Mr. Wheeler, the Assayer of this Institution, and was and am convinced that this temporary help is imperatively required.

The comparatively small force in our Assay Department has found it exceedingly difficult to keep up with the usual work supplemented by heavy receipts of silver bullion for dollar coinage under the provisions of the Pittman Act. Mr. Bowen, Assistant Assayer, who ordinarily supervises and assists in the humid work, has suffered with an injured shoulder and arm for some weeks past which render him unable to contribute his help in obtaining the humid results.

We are all very anxious, as I understand you sometime ago directed, to keep up as closely as possible in payments of these silver bars to the consignors thereof, and to do this I must frankly say I cannot see any alternative to the proposed employment of temporary assayers to recruit the small number of regulars available.

I have thought proper to inclose for your information a statement setting forth the operations of the Assay Department for the past fiscal year. You will note the very large increase in samples taken and assays made since the inauguration of dollar coinage.

The pay of temporary helpers, $4.00 and bonus, is obviously inadequate for the skilled work requisite in the Assay Department, and all of the men submitted in my wire for temporary assistants there, are assayers of experience and I believe will justify their selection for this work and the proposed compensation of $5.75 per diem plus the bonus. Will you kindly wire reply.

Hon. R. T. Baker,
Director of the Mint,
Washington, D. C.

Sir:

Replying to your letter of the 11th instant in regard to the Budget System and the cutting down of our appropriation:

It is too early for me to make any suggestions as to the reducing of expenses or a consolidation of positions as I have not had a chance to study the matter. The first two weeks I was in here the Settlement Committee were working so that all the clerks were busy. Since the first of July the operating department has been closed down so I have not had a chance to study that department at all; however, I shall go into the matter thoroughly within the next month and make my report. In the meantime I shall use every effort to reduce unnecessary expenses and cut off corners.

In a letter from your Office, dated May 6th, of this year, in regard to the expense of the coinage of dollars from the Pittman Act, I understand that the cost of such coinage will all be charged to a special fund and will not be taken out of our appropriation. If this is a fact, I do not think we will have any trouble in getting through the year with the reduced appropriation unless we should start up the melting and refining department, and in that case I would like to have time to make some estimates.

Sir:

You are already advised that our Melter and Refiner, Mr. J. N. Hetrick, has handed in his resignation to take effect August 1st.

I have not made any arrangements for a man to take his place and I would like very much to get your advice on the matter. I consider the Melter and Refiner's position one of the most important and responsible in the Mint and do not know of anyone who could fill it. Mr. B.V.Matson, who formerly held the position in the New York Assay Office, has made application. His record seems to be good and if you are willing to have him transferred, it will be satisfactory to me. There is no hurry about the matter as we can get along for a month or so, if the M. & R. is not started up.

Please let me know your wishes in the matter.

We have to confirm your wire of the 15th reading as follows:

> "Make preparations to resume maximum production of silver dollars beginning eighteenth, using overtime necessary to keep automatic scales running twenty four hours."

We started up the rolling room on the 18th, - the melting room and also the weighing department to-day, and we will start the annealing room to-morrow and coining room Friday.

We will have no trouble in keeping up the work with the automatic scales by running ten hours per day. Where we are short is in the rolling room where we run sixteen hours. We may be able to increase that to twenty four hours after we have increased our force in the melting room and broken in enough men to run another shift in the rolling room.

Please advise us if you think this is necessary.

Sir:

I have this day mailed, under separate cover, my estimate of appropriations required for the support of this Institution for the fiscal year ending June 30th, 1923, as requested by your letter of the 25th ultimo.

I wish to say, that the figures therein presented have had my very careful analysis and in the items of Wages and Contingent Funds I have, I believe, worked upon a basis of the lowest possible cost of operation consistent with a normal production of coin and bullion treatment. Indeed it has been somewhat difficult to forecast the rather hazy requirements of overtime work, the probability or improbability of our refinery re-opening and the continuance of this dollar coinage, as affecting the estimates herewith.

The item of alloy copper, alone, under dollar coins, promises to be a somewhat considerable one; the future price of fuel oil is necessarily speculative; and, as you know, our contract for the current year for electric power, light and fuel gas has been very notably burdensome in its highly increased rates of charge, although I was enabled to bring about a partial scaling of the rates as originally presented. They are, however, still very high.

I have included in the general content of the estimates, wage and contingent expenses for a possible re-opening of our electrolytic refinery, although I have deemed it desirable to particularly note this refinery estimate in conclusive paragraphs and then deducting the same from the totals.

I feel that the salary increases submitted are eminently just.

Respecting your careful and favorable consideration for this manifest of our requirements a year from now,

I remain,

Director of the Mint,

Sir:

Permit me to refer to my letter of July 11th, requesting authority to re-instate

WILLIAM R. WELSH

as a melter here, at $5.00 per day.

No answer thereto has reached me.

I find, as I stated, that Mr. Welsh, who was a former melter and desires re-instatement, is employed here now simply as a temporary melter at $5.00 per diem. I think it very desirable that his re-instatement be brought about.

Respectfully,

Superintendent

Sir:

I have to enclose an account stated against Standard Silver Dollar Coinage, in amount $2,795.81, in favor of the Wages of Workmen Appropriation of this Institution.

This voucher covers only unusual and overtime labor expended in striking these dollars during the month of July.

Respectfully,

Superintendent

Sir:

I will thank you to have prepared a new Bond for execution by

GEORGE J. BUCHER,

helper at this Institution, in the penal sum of three thousand dollars ($3,000.00). The present Bond is for five thousand dollars ($5,000.00) and governed Mr. Bucher's employment in our Refinery when same was in operation.

D. C.

Sir:

Referring to enclosed letter from the U. S. Civil Service Commission, Washington, D. C., in reference to my request for the reinstatement of

WILLIAM R. WELSH,

as a Melter at this institution, you are advised that Mr. Welsh served here under permanent appointment from March 18th, 1918, to September 30th, 1918, as a Skilled Workman, and from October 1st, 1918, until June 23d, 1920, as a Melter, resigning at the latter date.

Since April 28th, 1921, he has been, and is now, employed as a temporary Melter, at $5.00 per diem. He is willing to remain as Melter permanently and is a good workman whose services and experience are very desirable. I have, therefore, to again ask that his reinstatement be made effective.

Respectfully,

Sir:

On August 1st we retired all the men in the Mint subject to retirement at this time. This included Mr. Rotrigh, who had resigned, making six in all. Among those retired was Mr. Baker, a Clerk.

At that time I applied to the Civil Service Commission for a list of Clerks who are on the eligible list, and received three names. Of the three we picked out Mr. Shumaster who was highly recommended, and after talking to him I decided he would make a good man for us. I wired your Office for authority to engage him. I received an answer asking us to delay the matter until you could see if there were not some available men in the other Offices that could be transferred. Later I received a wire from you asking if we would not use a Mr. Pike from Boise. Upon investigation I found that Mr. Pike was, probably, about sixty years old and I was not sure whether we could use him or not, and wired you to that effect.

Our situation here at the present time is bad, on account of one Clerk being away on a vacation - another will go when he returns. We have no one to take Mr. Baker's place. We have assigned one Clerk to the Civil Service and we still are short a fourteen hundred dollar Clerk. This makes the Denver Mint three Clerks short of our allowance.

I would like to get a young man in this position who can learn the business and who will be able, in an emergency, to take the place of any Clerk that may be on sick leave or vacation, - a man we can use in any Department. For that reason, I wish you would give us the authority to appoint a Clerk at once.

Respectfully,
